

## **Crop Recommendations for Ornamentals**

### **Container plants:**

- Apply at the rate of 1 liter/hectare (13-16 oz/acre) or use a 1% solution to new transplants
- Apply at the rate of 1 liter/hectare (13-16 oz/acre) or use a 1% solution every 30-60 days, and each time the plants are moved to a larger container

### **Field grown plants:**

- Apply 1 liter/hectare (13-16 oz/acre) either as a foliar spray or a ground application every 30-60 days

***Vitazyme can be tank mixed with all horticultural chemicals, including herbicides, insecticides, fungicides, and fertilizers.***

***Added benefit: when mixed with herbicide, Vitazyme will stimulate weed growth, thereby enhancing herbicide efficacy***
