

Crop Recommendations for Trees

Container plants:

- Apply at the rate of 1 liter/hectare (13-16 oz/acre) or use a 1% solution to new transplants
- Apply at the rate of 1 liter/hectare (13-16 oz/acre) or use a 1% solution every 30-60 days, and each time the plants are moved to a larger container

Field grown plants:

- Dip roots in a 1% solution prior to planting or for mechanical planters apply 1 liter/hectare (13-16 oz/acre) through the planter
- Apply 1 liter/hectare (13-16 oz/acre) either as a foliar spray or a ground application every 30-60 days

Vitazyme can be tank mixed with all horticultural chemicals, including herbicides, insecticides, fungicides, and fertilizers.

Added benefit: when mixed with herbicide, Vitazyme will stimulate weed growth, thereby enhancing herbicide efficacy
